🌐 Portfolio

Profile

Full Stack Software Engineer experienced in designing and developing scalable web and mobile applications, from frontend interfaces to backend services and database architecture. Proficient in React, React Native, NestJS, Node.js, PostgreSQL, and MongoDB, with hands-on experience integrating AI, machine learning, and computer vision into software solutions. Comfortable working across the full development lifecycle, with a strong focus on clean architecture, reliable systems, and continuous technical growth.

Experience

Full Stack Engineering Intern

Feb. 2026 – June 2026

QuetraTech, Mahdia

HaulTrack — Smart Fleet Management Platform

- Led the end-to-end development of a full-stack fleet management platform, from system architecture to deployment.
- Developed real-time backend services using Node.js, Express, Redis, and MQTT for IoT telemetry processing.
- Built an AI microservice with FastAPI, YOLOv8, and EasyOCR for automated license plate recognition.
- Delivered a React dashboard with GPS tracking, geofencing, and real-time alerts using Socket.IO.

Full Stack Developer Intern

Jan. 2026 – Feb. 2026

QuetraTech, Mahdia

RoboHealth — AI-Based Robot Health Monitoring

- Developed a full-stack predictive maintenance platform using React, Node.js, MQTT, and Docker.
- Built and evaluated an XGBoost anomaly detection model for industrial robot telemetry.

Full Stack Developer Intern

Feb. 2024 – May 2024

LeaderPos, Sfax

E-Learning Platform

- Developed a full-stack e-learning platform using Angular, Spring Boot, and MySQL.
- Designed REST APIs for authentication, course management, and multimedia content.

Personal Projects

NAWAT — Wedding Web & Mobile Application

2026

Stack: React | React Native | NestJS | PostgreSQL

Freelance full-stack wedding platform currently in development.

- Developed a multi-platform wedding application with dedicated web interfaces for Super Admin and Admin users, and a mobile application for couples and guests.

- Built the full-stack architecture using React, React Native, NestJS, and PostgreSQL, including RESTful APIs and database integration.
- Designed role-based application flows and responsive interfaces to support different user experiences across web and mobile platforms.

AI Delivery Assistant — Smart Delivery Tracking Assistant2026

Stack: Python | MongoDB | FAISS | NLP

AI-powered assistant for delivery tracking using semantic search.

- Built a Python assistant integrating MongoDB for managing delivery and user data.
- Implemented semantic search with MiniLM and FAISS to answer natural language queries.

Technical Skills

Programming Languages:	JavaScript, TypeScript, Python, Java, SQL
Frontend:	React.js, Angular, Vite, Tailwind CSS, HTML5, CSS3
Backend:	Node.js, Express.js, FastAPI, Spring Boot, RESTful APIs
Databases:	MongoDB, MySQL, Redis
IoT & Communication:	MQTT, Socket.IO, ESP32, GPS, Telemetry
AI & Computer Vision:	XGBoost, Scikit-learn, YOLOv8, OpenCV, Machine Learning, Anomaly Detection
DevOps & Tools:	Docker, Git, GitHub Actions, CI/CD, Vercel, Render, Postman

Education

Master’s Degree in Internet of Things	2024 – 2026
Higher Institute of Technological Studies of Mahdia (ISETMA)	
Bachelor’s Degree in Information Systems Development	2021 – 2024
Higher Institute of Technological Studies of Mahdia (ISETMA)	

Certifications

Building LLM Applications with Prompt Engineering	NVIDIA, 2025
Building Conversational AI Applications	NVIDIA, 2025
Building RAG Agents with LLMs	NVIDIA, 2025
English Proficiency Certificate — B2	EF SET, 2026

Languages

Arabic (Native) | French (Fluent) | English (B2 Upper Intermediate)
